

July 28, 2015

This last Sunday was the day I was taking the men from ACTC Halfway House to Green Mountain Falls. When I arrived at ACTC, I was disappointed to learn that only four men were coming, not realizing that that this was GOD's will, that GOD had a purpose. Never the less, we traveled through a hour long traffic jam, finally arriving at our destination, just west of Colorado Springs. We ate lunch by the lake, and then started our climb up the rapids. It was a beautiful day and the water fall was still very strong, making it a dangerous climb.

After exploring the water fall for two hours, each of us going our separate ways, we came together at my favorite place, a rock by the falls, where, looking up the falls, we could see five powerful mini-water falls. The four men were all strong Christians, who regularly attended our Bible Study at ACTC. None of them had ever explored the mountains or seen, let alone, climbed a waterfall.

Together, we discussed the wonder of nature and the peace we each experienced in the midst of the grandeur and power of GOD's creation.

Each of us then prayed. Overwhelmed by the Holy Spirit, we then just stood in silence, at peace with GOD, not wanting to ever leave. It was an amazing experience that none of us will ever forget.

GOD Bless,
