

PRAISE REPORT

March 10, 2017

At our Lost and Found worship services we have been talking about how to prepare our hearts for Easter. Out of these discussions, came ideas from our youth. One of our youth created a face book page for Lost and Found with scripture, inspiration and a place to ask for prayer requests. Just yesterday, someone posted a prayer request and our volunteers immediately prayed for her need. Our Sunday youth band made a decision to also have worship on Friday nights.

Last Friday night we were introducing worship and there did not seem to be a lot of interest. I was disappointed and wondered if anyone was even listening. Afterward, a young man named Isaiah, who was new to the Community Center, asked one of our youth volunteers for a bible and for someone to pray for him. Isaiah went on to share that he was homeless, addicted to drugs and wanted to ask God for help. He said he had heard the worship song and felt like God was telling him he needed to reach out for help. Immediately, in one of our quiet rooms, two of our Christian young men, who have had similar pasts, shared Christ and prayed with him. Isaiah prayed to God for help and confessed his sins.

It is a blessing to see how GOD works in the lives of these youth; how they love GOD and love each other!
